

Public Health Career Fair Organizations

American Institute for Research (AIR)

AIR is one of the world's largest behavioral and social science research and evaluation organizations. Its overriding goal is to use the best science available to bring the most effective ideas and approaches to enhancing everyday life. Founded in 1946 as a not-for-profit organization, AIR conducts its work with strict independence, objectivity and non-partisanship. AIR's mission is to conduct and apply the best behavioral and social science research and evaluation towards improving peoples' lives, with a special emphasis on the disadvantaged.

Center for Environmental Health (CEH)

Since 1996, the Center for Environmental Health has helped lead the growing, nationwide effort to protect people from toxic chemicals. CEH believes that chemical makers have no right to expose people to concoctions that affect their family's health. That's why it works with parents, communities, businesses, workers, and government to protect children and families from toxic chemicals in homes, workplaces, schools, and neighborhoods.

The Children's Aid Society

The Children's Aid Society helps children in poverty to succeed and thrive. Today, Children's Aid serves New York's neediest children and their families at more than 40 locations in the five boroughs and Westchester County. The organization provides care that begins even before birth, through prenatal counseling and assistance, and continues through the high school years with college and job preparatory training programs. All aspects of a child's development are addressed as he or she grows, from health care to academics to sports and the arts. And because stable children live in stable families, a host of services are available to parents, including housing assistance, domestic violence counseling and health care access.

Department of Health and Mental Hygiene (DOHMH)

HRTP Internship Program: For over 50 years, HRTP has provided the opportunity for undergraduate, graduate and professional school students to experience some of the "real life" challenges of public health. By working on current relevant public health issues under the close supervision and mentorship of experienced professionals, students apply classroom learning to practical problems in a closely matched practicum and, in the process, learn critical skills needed to excel in the field.

Hospital for Special Surgery

HSS is nationally ranked #1 in orthopedics, and #3 in rheumatology by U.S. News & World Report (2014-15). Because an infection can be a devastating outcome for an orthopedic patient, Hospital for Special Surgery takes infection control extremely seriously and is proud of the recognition received for its significantly low infection rates. Founded in 1863, Hospital for Special Surgery is the nation's oldest orthopedic hospital. More than 25,000 surgical procedures are performed annually.
