

Hi, Pre-dents! I am Meirrel Hosny and I am running for the position of President of the Pre-Dental Society at Hunter College. I am currently a senior pursuing my degree as a psychology major and a chemistry minor. I was honored enough to serve as your Vice-President for the spring of 2015. In addition I also worked as a Biology, Chemistry and Organic Chemistry tutor at the College of Staten Island. So, a little bit about my background. I am an Egyptian who was born and raised in Dubai for 14 years. My family and I moved to New York about five years ago. The dental program at Tottenville High School was the root cause of my deep passion for the field of dentistry. This passion inspired me to approach dentistry from an altruistic and collaborative perspective.

At Tottenville High School, I was exposed to a lot of hands-on activities in the dental field. Besides the great lab work experience that I gained through the dental program, I was also involved in many activities that were targeted towards increasing awareness on oral hygiene and dental care. My interest in dentistry was guided by my teacher who always made sure that everyone got an opportunity to experience the true feeling of being involved with oral care. Through him, I was able to volunteer with a general dentist in Brooklyn and work at an Orthodontist's office on Staten Island. These experiences added onto my love for dentistry. I also attended multiple dental programs including Discover Dental at Stony Brook School of Dental Medicine last summer, and Gateway to Dentistry program at Rutgers School of Dental Medicine this past winter.

I joined the Hunter College Pre-Dental Society almost two years ago. As a pre-dental member, I was more than lucky to have the opportunity to attend most of the meetings and events. As Vice-President, I was very happy to do my job and assist our awesome president Bobby Alonzo and e-board with organizing multiple events at Hunter, and keeping track of all the events outside of Hunter. In the one semester, which I served with them, I learned so much about how to run our PDS. It makes me delighted to see the Pre-Dental Society this active, organizing multiple events and meetings. I wish, from the depths of my heart, to play a role in all of this. I will be applying to dental school this summer so I am pretty

knowledgeable with the application process. I would be more than happy to assist every pre-dental student with regards to classes, pre-requisites, shadowing, dental school applications and much more. The Pre-Dental Society would be a priority in my life, and I would make sure that every task is achieved with perfection. I would take it upon my heart to make the society presentable whether it be visiting doctors, admissions committees or even Hunter students.

The society along with its incredible e-board members have personally held my hands, and lead me to the right track. I feel that it's my turn and responsibility to help other students find their way to the right path. With your support, I promise to fulfill all of my goals to make this year a memorable one. I wish you all the best of luck in your upcoming finals, and hopefully a great summer to come.

Thank You ☺
