

# Private two-on-one MCAT tutoring in Manhattan

email: NYCMCAT@gmail.com

We are two recent graduates (B.S. Neuroscience; B.A. Chemistry) from Johns Hopkins and Williams College. We are offering a unique, intensive two-on-one private tutoring program in Manhattan beginning in October for a limited number of students planning to take the January 2017 MCAT.

We took the new exam this year, and scored in the 90th and 98th percentile, respectively. To ace the MCAT, we closely investigated all of the prep material on the market (ie. Princeton Review, Kaplan, EK, AAMC official resources) and have examined their pros and limitations. With our combined knowledge, we are confident that we can tailor our program to perfectly suit any student's particular learning style. If you are gearing up to take the MCAT in January, we are whom you are looking for!

We will train motivated and ambitious students who can commit to putting in the work required to achieve a **>90th percentile score**. We are providing something that no other prep company or private tutor could provide. Again, limited spots are available. We will select no more than three clients to fully cater to their individual needs.

Contact us now to set up a free consultation. You will be asked to fill out a short questionnaire so we can learn more about you and what score you hope to achieve by working with us.

We look forward to meeting you!
