

Financial Aid

As with any summer course, if you are planning to study abroad in the summer semester you should plan your financial aid accordingly! You will not be able to receive financial aid for this elective course, although you may want to consider taking out enough money in the Spring Semester to cover some of the costs.

Study Abroad Scholarships

There are so many scholarships that are just waiting for applicants. Take advantage of college wide, national, and international scholarship opportunities. Think about using time over break to send out applications.

Go Fund Me!

You may be surprised how many friends and family would be willing to donate toward this humanitarian study abroad experience. Try setting up a “Go Fund Me” account to see if you can get sponsorship. Every donation counts!
