Get to know SGU

Over the last 40 years, the University has contributed over 18,000 physicians, veterinarians, scientists, and public health and business professionals who are studying across the world. SGU has flexible entry points in August and January with scholarship opportunities.

School of Medicine

- #1 provider of doctors into first-year US residencies for the last seven years combined. Over 900 US residencies in 2017.*
- In 2016, St. George's University's US and Canadian students achieved a 96% first-time pass rate on the USMLE Step 1.
- SGU is the #1 provider of new primary care physicians in the US.*
- Clinical training program conducted in more than 70 affiliated hospitals in the US, UK, Canada, and Grenada

School of Veterinary Medicine

- St. George's University's network of over 1,400 School of Veterinary Medicine graduates have practiced in 49 United States and 16 countries worldwide.
- 94% pass rate on the North American Veterinary Licensing Examination (NAVLE) in 2016-2017
- Clinical training at affiliated universities in the United States, United Kingdom, Canada, Australia, and Ireland.

*According to published information as of August 2017.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at sgu.edu/med-ge or sgu.edu/vet-ge.
