

**GOD'S LOVE
WE DELIVER®**

[GLWD.ORG/GETMEALS](https://glwd.org/getmeals)

FREE, Home-Delivered Medically Tailored Meals & Nutrition Counseling for Individuals Affected by Sickle Cell Disease

God's Love We Deliver now serves people affected by sickle cell disease, which is a grouping of disorders with the most common being sickle cell anemia. These genetic conditions cause blood cells to be misshapen and are most prevalent among Black and Latin Americans.

HOW OUR MEALS HELP:

- Our well-balanced antioxidant-rich meals contain a wide variety of nutrients including protein, calcium, and zinc.
- Our meals can reduce oxidative stress and ease the nutritional deficiencies that those with sickle cell face.
- God's Love meals also provide calories to promote weight gain and growth in children with the condition.
